Board of Investment (BOI), Sri Lanka

Strict implementation of COVID-19 preparedness and response activities

In the current situation with the rapid spread of COVID -19 in the country, certain work settings are considered to be more vulnerable to the spread of infection due to the inherent nature of work. The apparel industry and the manufacturing industry are such identified vulnerable work settings.

In this context, the 'Operational Guidelines on Preparedness and Response for COVID-19 outbreak for Apparel Industry', issued on 25th October 2020 and the 'Operational Guidelines on Preparedness and Response for COVID-19 outbreak for Manufacturing Industry', issued on 27th November 2020 circulated by the Ministry of Health has been revised. These revised guidelines are attached herewith, for your information and necessary action.

Appreciate, if you could do the needful to ensure strict adherence to these guidelines in enterprises under your purview, in order to prevent and curtail the spread of infection.

Dr. Asela Gunawardena
Director General of Health Services
