#### Chairman's Message

"Board of Investment of Sri Lanka, the focal point for investment promotion"

Since its inception in 1978, the Board of Investment of Sri Lanka has been a key contributor in redirecting and shaping the economy of Sri Lanka. Being the first Investment Promotion Agency within South Asia, BOI was a pioneer in attracting foreign direct investment into Sri Lanka, generating employment and export earnings.

In the year under review, we develop our strategic direction with a corporate plan with its latest Five-year Corporate Strategy which aims to create critical economic change and draw US\$ 3 Bn in Foreign Direct Investments (FDIs).

With the advent of new technology trends especially Industry 4.0, The BOI goes digital to draw FDI and boosts business efficiency, this needed a novel approach to harvest optimal business success giving priority to the ease of doing business. The BOI has set up a paperless documentation platform where any enterprise registered under the BOI can submit relevant documents electronically without coming to the BOI office physically. The sole objective of this system is to provide a speedy service to our valued enterprises where processes and procedures have been simplified and streamlined.

The BOI has set up the Investor Facilitation Centre (IFC), where a dedicated space has been allocated on the 27<sup>th</sup> Floor at the West Tower of the World Trade Centre (WTC) in view of providing an efficient service to investors while streamlining the investment approval process and strengthening the interagency coordination.

The BOI's accomplishment in attracting sizable and beneficial investment projects and facilitating them

has been well recognized by international counterparts by offering two international awards during the year under review. I'm happy to mention that the BOI won the Silver Award for the second-best performing Investment Promotion Agency in the South, East Asia, and Oceania Region at the Annual Investment Meeting (AIM) Awards 2022.

The Katunayake Export Processing Zone (KEPZ), the largest zone in Sri Lanka operating under the purview of the Board of Investment (BOI) has secured a special honorable mention for its reinvestment strategy in the Annual Free Zones of the Year Ranking 2022, reinforcing its position as one of the region's leading industrial and free zones. The award was conferred by UK-based fDi Intelligence, a foreign direct investment service by the Financial Times Group.

All of our experiences at the BOI family evolve around its members. In this given year a significant event has been happening, in the history of the BOI the highest number of employees are retiring, and it's time for gratitude, hence this very special annual report keeps the historic record and our heartfelt gratitude to all our very senior comrades who carried BOI flagship for decades are departing and our heart & souls are with you wishing you wonderful retirement with joy and happiness.

Finally, it is all about our human capital. It is already in the pipeline how we going to upskill and reskill the most important factor in our organization. It is our people, ability to work in the present and future ecosystem which enables driving the digital transformation of the customer experience in the digital economy where it needs to attract digital FDI.

Eng. Raja Edirisuriya

Chairman
Board of Investment of Sri Lanka

#### **Director General's Message**

"With all positive initiatives implemented, BOI contributed to create a favourable environment for investors"

It gives me great pleasure to present the annual report of the Board of Investment (BOI) of Sri Lanka for the year 2022. This past year has presented unprecedented challenges, amidst the global economic recession preceded by the pandemic and resultant uncertain investment climate influenced by emerging political risks and trade tensions.

Sri Lanka has faced its fair share of crises amidst these difficulties and challenges to attract foreign direct investment (FDI). However, I am happy to highlight the positive initiatives undertaken by the BOI in 2022 to foster a more favorable investment environment. Through the establishment of the Investor Facilitation Centre (IFC), digitization of BOI functions, promotion of reinvestments, introduction of the partnership finder database, and the Five-year Resident Visa programme, the BOI has ensured seamless services and supported existing enterprises to navigate economic challenges through this turbulent period.

In line with our commitment to the Sustainable Development Goals outlined in the 2030 UN Agenda, the BOI launched its Strategic Framework 2022-2026 during this year. This strategic approach aims to attract higher levels of quality and sustainable FDI, which in turn will contribute significantly to the Government's Economic Development Agenda by creating employment opportunities, increasing export revenue, and developing infrastructure.

Investment facilitation has been identified as a core stimulator under the overall investment policy, and the BOI engages with investors from their initial inquiry throughout the lifespan of their projects. Despite the macro challenges, I am pleased to announce that, the Foreign Direct Investment (FDI)

inflow during the year 2022 surpassed US\$ 1 Bn target and reached the amount of US\$ 1.076 Bn, a 38% increase compared to the year 2021. In addition, the Merchandise Exports by BOI enterprises grew by 8% in 2022 compared to 2021 and by 10% compared to pre-pandemic levels in 2019. Furthermore, the BOI played a pivotal role, contributing to 80% of the country's Industrial Exports in 2022.

I am delighted to share that our efforts have been recognized internationally. The BOI won the Silver Award for the second-best performing Investment Promotion Agency in the South, East Asia, and Oceania Region at the Annual Investment Meeting (AIM) Awards 2022. Additionally, the largest BOI Export Processing Zone at Katunayake received a special honorable mention at the FDI Intelligence Free Zone Awards 2022 for its reinvestment strategy.

None of our achievements would have been possible without the invaluable support of our investors, both domestic and international. I express my sincere gratitude to them for the confidence in Sri Lanka's potential. My appreciation is extended to the Ministries and State Institutions for their continuous collaboration and support towards facilitating investment projects. I also acknowledge the contributions of our dedicated team at the Board of Investment, whose passion and professionalism drive our success.

Looking ahead, the BOI remains steadfast in its mission to create a prosperous investment landscape in Sri Lanka. We are committed to implementing further initiatives and reforms to attract high-quality FDI, stimulate economic growth, and build a sustainable future for our nation.

#### Renuka M Weerakone

Director General
Board of Investment of Sri Lanka

Mr. Pelpola became the youngest CIMA Management Accountant in the world at the age of 20. He was also the youngest CIMA prize-winner at the time. He also received his Postgraduate Diploma in Marketing from CIM (UK).

Eng. Raja Edirisuriya Chairman Board of Investment of Sri Lanka

#### **About BOI**

Incorporated in 1978, The Board of Investment was constituted with a mandate to function as the focal point for investment promotion, for widening and strengthening the national economy. The apex agency promotes sustainable economic growth by creating skilled and niche job opportunities, generating exports and enhancing technology and skill transfer to the country.

BOI supports investors throughout their investment journey in a way that has built investor trust among existing investors while demonstrating its capabilities, working with agility and purpose to achieve its objectives and targets. The apex agency ensures diversification and increase of foreign exchange earnings while encouraging and fostering the establishment of industrial and enterprise development. Despite potential external shocks, investment promotion and retention skills of BOI integrated with many other initiatives has enhanced, its international competitiveness among peers.

- As the National Investment Promotion Agency, The role of ROLis:
- To target and attract investments to priority sectors to support implementation of the Government's investment policy and progressively increase the level of FDI, contributing towards achieving national growth targets.
- The BOI acts as the first point of contact for investors who intend to set up projects in high value added/high-tech manufacturing, high value-added apparel, IT enabled services, tourism, food processing, logistics, education and large-scale infrastructure or other chosen sectors in Sri Lanka. Information and guidance is provided and approvals required from other Line Agencies are coordinated by the BOI to facilitate the investors.

- Investment applications in respective sectors are evaluated by the BOI to approve project proposals, grant concessions and facilitate visa issuance for expatriates.
- The BOI provides assistance to investors throughout the project cycle from start -up to implementation and successful operation of the project, by facilitating and attending to import/ export clearance for import of capital goods and raw materials and export of final products.
- The BOI develops Export Processing Zones with readily available infrastructure facilities to provide investors with suitable sites for the implementation of projects within a minimum period of time.

"The BOI provides
assistance to investors
throughout the project
life-cycle from start-up to
implementation and
successful operation
of the project"

#### **Vision**

"To make Sri Lanka the most Preferred Destination for Sustainable Investment in Asia"

#### **Mission**

#### SILVER AWARD

Silver Award Winner at AIM Awards 2022

The Board of Investment (BOI), one of the foremost investment promotion agencies in South Asia, won the Silver Award for the second-best performing Investment Promotion Agency in the South, East Asia and Oceania Region at the Annual Investment Meeting (AIM) Awards 2022.

The AIM awards target to capture each country's accomplishment in attracting sizable and beneficial investment projects and their contribution to the respective countries' economic growth and development.

The award ceremony organized by the AIM was held at Armani Hotel, Dubai on March 29, 2022, and the Sri Lankan Consul General Office for Dubai & Northern Emirates represented the Board of Investment of Sri Lanka at the award ceremony.

#### FREE ZONE AWARDS

fDi Intelligence Free Zone Awards 2022

BOI Katunayake EPZ Recognized at the fDi Intelligence's Free Zones Awards for its Reinvestment Strategy

Sri Lanka's largest EPZ at Katunayake was recognized with a special honorable mention at the fDi Intelligence Free Zone Awards 2022 for its reinvestment strategy. The UK based fDi Intelligence Free Zone Awards 2022 recognizes and assesses the most promising free zones across the world and zones that offer the best investment environments and prospects for business expansion and economic development, and was judged by the Finance Times Editorial Team and a panel of independent specialists from the region.

The reinvestment strategy was launched to increase the FDI inflow by assisting the incorporation of new BOI ventures, wherein it strives to increase the capacity, productivity, growth, diversification, and expansion of the existing BOI enterprises. As of date of honorary recognition, four out of the 33 large tenants in the zone have initiated expansion with a pledged investment of US\$ 26.5 Mn and almost 1000 employment opportunities.

#### **Key Events**

#### IF(

Inauguration of Investor Facilitation Centre (IFC)

The Board of Investment (BOI) as the catalyst and facilitator of investment promotion, launched an Investor Facilitation Centre (IFC), a dedicated space allocated on the 27<sup>th</sup> floor at the West Tower of the World Trade Centre (WTC) to provide an efficient and seamless service to investors while streamlining the investment approval process and strengthening the interagency coordination.

The IFC is meant to address the unnecessary delays faced by investors and thereby, sustain their confidence.

IFC has been set up in a wellorganized manner making things comfortable and convenient for investors while it provides them with essentials such as meeting rooms, information, and application submission desks within a modern business facilitation centre.

The IFC was launched by the State Minister of Investment Promotion Hon. Dilum Amunugama on 20th October 2022.

#### PARTNERSHIP FINDER

'Partnership Finder' A Platform to Attract Investments

BOI introduced the "Partnership Finder" (PF), a new strategic initiative to attract investment from existing investors in the country and to facilitate business partnerships with foreign and Sri Lankan companies/investors. This interactive platform provides the BOI registered investors and other prospective investors with a window of opportunity to get connected with new entrepreneurs and innovators with novel ideas.

The platform will operate as a network for both foreign and local companies and is designed to help businesses, research institutes, and startups to succeed by finding the right partners for their next innovation or business venture. The database will consist of the companies' details according to the business categories such as agriculture, apparel, infrastructure, knowledge services, manufacturing, services, tourism & leisure and utilities.

The companies registered on this platform get the opportunity to directly connect with the other Company/Investor using the contact information on their profiles.

#### **Key Events**

#### LONG-TERM RESIDENT VISA

Introducing Long-term Residence Visa Programme for Investors

The Board of Investment (BOI) launched the five-year residence visa programme dedicated to investors, stakeholders and BOI enterprises. Issuing long-term visas for investors matching the international benchmarks for Ease of Doing Business. The BOI launched this programme to better facilitate the investor experience whilst operating in Sri Lanka. The long-term visa programme, a long-felt need, has been welcomed by the investor community.

The programme was inaugurated by the State Minister of Investment Promotion Hon. Dhammika Perera on 04<sup>th</sup> July 2022.

#### **VISA FACILITATION**

Online Visa Recommendation System Accelerating its Digital Transformation

Aimed at enhancing the Ease of Doing Business and accelerating digital transformation, the Board of Investment (BOI), inaugurated the visa recommendation system together with the Department of Immigration and Emigration and the Ministry of Defence to provide online visa recommendation for potential investors visiting Sri Lanka and all the enterprises that fall under the purview of the BOI.

Under the newly launched system, visa recommendations will be granted under three visa categories namely, entry visas, residence visas, and when extending visas. In addition, the applicants who will be eligible to apply for this, are the investors, employees, and dependents of the investors, and selected employees.

One of the major benefits enjoyed by investors/enterprises out of the novel system, is the elimination of investors' physical presence at the BOI saving their time. Investors can also monitor the online portal and review the status of the process.

Upon the completion of the process, the applicants will be notified via an SMS and email alert and applicants can visit the Immigration Department where they will be issued the visa.

#### **Engagement with Investors**

#### **ONLINE WEBINARS**

Aiming Potential Investment Opportunities in Sri Lanka

A series of online Webinars to raise awareness about the potential investment opportunities in Sri Lanka to attract new investors was launched in 2022.

The BOI is of the view that times of hardships can be a time for new opportunities for investors to engage in novel investments in the country. As such, the BOI is leaving no stone unturned to ensure that it moves in a positive direction towards bringing in new investments to the country.

The webinar series also creates a platform for investors to gain awareness about the Investor Facilitation Centre (IFC), which was opened on the 27th floor at the West Tower of the World Trade Centre recently to streamline the services provided to investors.

#### **EU - SRI LANKA**

EU - SL Investor Dialogue (Facilitation Forum)

BOI had been a key partner of Sri Lanka - European Union (EU) Investor Dialogue between the Ministry of Finance and the Delegation of the European Union in Colombo. The prevailing economic situation, Forex related challenges, policy consistency regarding investment and taxation, and the need for a streamlined process to establish a company in Sri Lanka were key concerns highlighted. Positioning Sri Lanka as a transport and logistics hub, promoting Public Private Partnerships to boost EU Investment in Sri Lanka, and modernizing the health sector were areas of mutual interest.

Since its inception in 2014, the EU-Sri Lanka Investor Dialogue has provided an effective platform for existing investors from the EU to discuss issues faced by their companies with Senior Government Officials in order to find solutions.

#### **BOI & AHK**

BOI & AHK Investor Facilitation Meeting - KEPZ

The BOI in collaboration with the Delegation of the German Industry and Commerce in Sri Lanka (AHK) hosted an investor facilitation meeting at the Katunayake EPZ. Senior Management of leading German companies operating in Sri Lanka including Continental Tyres, KRAMSKI Lanka, Lanka Leather, COCO Lanka, Lanka Dynamics and Eskimo Apparel participated. The German investor fraternity are lifelong partners in doing business in Sri Lanka proudly claiming the status of "first movers" of Sri Lankan FDI heritage.

The key objective of the meeting was to seek both countries' solidarity in investment and revisit doing business with Sri Lanka for existing investors and a way forward for the future of German investment in Sri Lanka.

We have very advanced and technologically complicated types of equipment. I am being very happy with the ability to be at a source of a workforce that is skilled in. The workforce in Sri Lanka is very skilled, English-speaking, and trainable. I have been able to train them well in our business.

We are happy with the support receive from the BOI and the Government. I have seen throughout the pandemic lot of facilitation to enable us to keep on operating and keep on exporting. And even with the financial crisis that we are facing, we have had a lot of facilitation from BOI to continue our operations and keep the production going.

Mr. Luke Holmick Director We continued to do business with US buyers, UK, Europe, Canada, Japan, and Australia and to serve the brands like Victoria's Secret, Marks & Spencer, Next, Nike, Unicorn, and Puma. All these are our priority customers.

We are very happy with the support of the BOI for helping us to grow from a very small scale up to now.

Dr. Austin CK Au Managing Director Given the diversity Sri Lanka has to offer in terms of landscape, wildlife, history, and culture, I firmly believe that in the coming years, more and more people will realize how unique Sri Lanka is.

Sri Lanka has lots to offer and I am very positive the way the country has in terms of its offerings. It is actually the sky is the limit when it comes to the opportunities over here. There is so much which could be done here.

Mr. Piyush Tuagi General Manager Marine logistics, shipping, and the marine industry in Sri Lanka are still at a very young stage. So there is a lot of growth and potential in this industry. I invite future investors to come and set up in this industry, because there are many lucrative returns provided you are strategic in your approach and in your decision-making process. So Sri Lanka could earn potential foreign exchange from this industry, quite apart from traditional foreign exchange.

#### SDG INVESTOR MAP

UNDP, Government. Private Sector Partner for SDG Investor Map for SL

UNDP in Sri Lanka together with the Government yesterday launched the Sri Lanka SDG Investor Map, a market tool to direct private capital to segments where the country's Sustainable Development Goals and the State's policy and market opportunity intersect.

The Map is a result of a collaboration between UNDP, Ceylon Chamber of Commerce and Sri Lanka's Sustainable Development Council, the nodal Government institution responsible for coordination, facilitation, monitoring, evaluation and reporting on the implementation of the 2030 Agenda for Sustainable Development in Sri Lanka.

The Board of Investments (BOI) of Sri Lanka also provided input and validation during the development of the Map. Through secondary research and over 50 consultations with public and private sector organisations, the Map has identified 15 Investment Opportunity Areas that cover themes and business models across five SDG priority sectors: Renewable Energy, Healthcare, Infrastructure, Food and Beverages and Consumer Goods.

#### HI-LEVEL INV. FACILITATION

How Asian and Pacific Economies will Benefit

The Director General of BOI was invited to participate and share her views at the High Level Regional Roundtable on Investment Facilitation for Development, co-organized by the United National Economic and Social Commission for Asia and Pacific (ESCAP), International Trade Centre (ITC), The Association of Southeast Asian Nations (ASEAN), the German Development Institute/Deutsches Institut für Entwicklungspolitik (DIE), and the World Economic Forum (WEF). The Roundtable series, launched in September 2020, offered a platform for a strategic exchange among government officials on the World Trade Organisation (WTO) negotiations on an Investment Facilitation for Development (IFD) Agreement.

High-level policy makers, government officials, private sector representatives, and eminent academic scholars from 24 Asian and Pacific economies participated in the Roundtable, updating on the negotiations and raising awareness on their progress and reflection on how countries may best make use of the IFD Agreement to enhance their business climate, attract higher value-added investment and boost economic growth, digital economy innovations and sustainable development.

This reflection process also seeks to help participants to ensure that their countries' international engagement is in line with their Sustainable Development Goals (SDGs) and their national reform agendas.

## BOI Annual Report 2022

#### Staff Engagement

#### **CORPORATE STRATEGY**

Outlining the Corporate Strategy for 2022-2026

In the year 2022, BOI unveiled the Five-year Corporate Strategy by which it aims to create critical economic change. The 2022-2026 outlines the Strategic Objectives, Policies, Goals and the Key Performance Indicators (KPIs) of the BOI to become more successful.

BOI aims to deliver Compound Annual Growth Rate (CAGR) of 32% Foreign Direct Investment (FDI), with US\$ 3 Bn to be recorded as inflows in 2026. To realise this inflow would require building a committed FDI project pipeline around US\$ 5 Bn. These figures are in line with ongoing initiatives that are expected to enhance Sri Lanka's attractiveness as an investment destination.

Working towards the vision to make Sri Lanka the most preferred destination for sustainable investments in Asia, the BOI has made its mission to respond expeditiously in fulfilling the country's potential to attract and retain quality investment that will enhance the export base as well as both the quantum and quality of employment while boosting knowledge and skills through the transfer of new technologies and innovation.

#### BOI GROOMING THE SUCCESSION POOL

BOI Strengthens the Next Level of Leaders with PIM

In a bid to develop a next-level of succession pool, the Board of Investment of Sri Lanka teamed up with the Postgraduate Institute of Management (PIM), the Nation's Management Mentor, to launch a Strategic Leadership Development Programme designed for the Senior Deputy Directors and a Management Development Programme for the Deputy Directors.

The inauguration ceremony of the Programme got off the ground recently at the PIM auditorium with the participation of BOI top management and 41 Senior Deputy Directors and 30 Deputy Directors.

The objective of the program is to develop the interpersonal, conceptual, and technical skills of the officials so that they can eventually succeed in undertaking senior roles. Further, programs of this kind are hoped to be organized in the future as well.

### DIGITIZATION TO IMPROVE BUSINESS EFFICIENCY

Leveraging In-house Talent

In order to address the challenge of limited physical presence during the pandemic period, the concept of Digitization of the organization emerged as the best solution and significant improvements have already rolled out with respect to BOI functions. The introduction of Import Export facilitation through digitized system for submission of paperless import export documents such as e-submission of CUSDECs, Import **Export Management Online Web** Portal, Automated System for Import Export Verification Charges and for Capital Goods Imports are some of the recent initiatives undertaken by the BOI in this regard. This initiative has eased the import export process, especially for manufacturing sector companies. The system is open for both local and foreign enterprises operating with the BOI. Through this process, the physical presence of Customs House Agents (CHA) is eliminated while CUSDECs are approved electronically through the system saving time and cost.

#### **Development of Zones**

#### 15 BOI ZONES

#### Infrastructure Development in BOI Zones

Board of Investment of Sri Lanka facilitates investors in 15 BOI administered zones across the country. Even with new economic, social and other challenges, BOI was able to facilitate and support the continuous operation of all the zones throughout 2022.

In order to maintain the maximum support for investors within the zones, BOI continues the infrastructure developments in existing zones along with two new zones which are located at Eravur and at Hambantota. These two zones are being developed as dedicated zones to facilitate textile and pharmaceutical related investments.

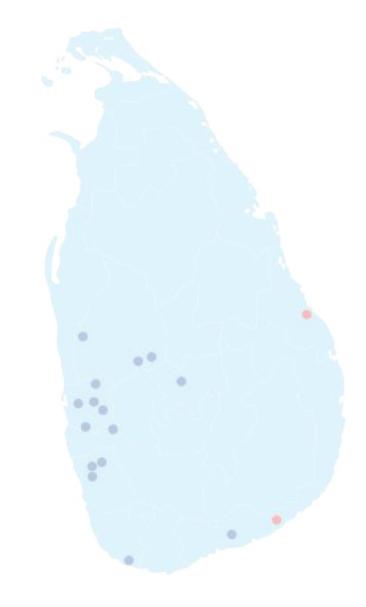

Apart from conventional infrastructure provision in the zones, BOI initiated building of fuel stations to fulfill the fuel requirements of the zonal enterprises. This initiation was driven by the fuel crisis that happened in the country and the fact that if such a situation reoccurs, enterprises in BOI zones can continue operation without much impact.

Furthermore, as one of the new objectives of BOI, in 2022 it was initiated to establish green standards within BOI zones which is an objective aligned with NDC (Nationally Determined Contribution). Accordingly, as first step KEPZ, KIP and WEPZ were selected to convert as Green Zones look into feasibility and methodologies for this green zones initiation.

In KEPZ, a groundbreaking was held for a student learning center with a day care facility considering the increasing demand of the zonal employees. Through this initiation, KEPZ expects to increase the female participation in the workforce which is an important factor for the country's economy.

Considering the need for a food security, vegetable cultivation programs were launched in zones with participation of BOI staff in order to provide them knowledge and experience which can be extended to maintain their own home gardens.

During 2022, BOI was able to attract new investments to zones. Among them, Lanwa Sanstha Cement Corporation (Pvt) Ltd. is a special project that commenced commercial operations from 2022 as one of the largest cement manufacturers in the region.

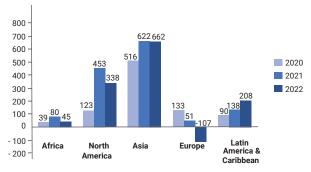

#### **Global Investment Scenario 2022-2023**

The fickle trends in global FDI continue as it plunged by 12% in 2022 to US\$ 1.3 trillion, following the strong rebound of 64% in 2021, after the steep drop recorded in 2020 owing to COVID -19 pandemic. The drop of FDI in 2022 was largely caused by overlapping global crises – the war in Ukraine, high food and energy prices, and soaring public debt.

This decline was largely driven by financial transactions of multinational enterprises (MNEs) in developed economies, where FDI fell by 37% to US\$ 378 Bn, predominantly in Europe and North America. However, FDI inflow of developing countries increased by 4% to US\$ 916 Bn, amounting to a record share of 70% of global flows. The least developed countries (LDCs) too experienced a downward trend with FDI falling by 16% to US\$ 22 Bn, which is less than 2% of the global FDI share.

Figure 1: Global FDI Inflows 2020 - 2022 (US\$ Bn)

Source: UNCTAD (World Investment Report 2023)

Even though developing countries recorded the largest share of FDI, it was unevenly shared with much of the growth concentrating in a few large emerging economies.

While attracting the same figures in FDI (US\$ 662 Bn) as 2021, Asia accounted to more than 50% of global FDI. India and ASEAN member countries were the most resilient recipients with 10% and 5% increase in FDI respectively. China too, being the second largest FDI host country in the world, marked a 5% increase in FDI.

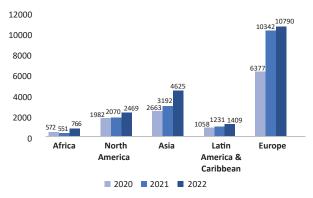

In Africa, FDI returned to its pre 2020 figures logging US\$ 45 Bn, despite its single transaction FDI increase evidenced in 2021. However, Greenfield Projects increased by 39% and international project finance by 5% within the region, with energy sector experiencing the biggest increase. Latin America and Caribbean region recorded its highest FDI level reaching US\$ 208 Bn, which is a 51% increase from previous years. This was largely due to the increased reinvestment earnings of foreign affiliations in extractive industries.

As far as Industry trends are concerned, there was an increase of project numbers in infrastructure and global value chain (GVC)-intensive industries, stable numbers in energy and a slowdown in digital economy sectors. Greenfield Investment Project announcements were up 15% in 2022, growing in most regions and sectors. GVC-intensive industries that face supply-chain restructuring pressures, including the electronics, automotive and machinery industries, saw project numbers and values grow. Three of the five largest announced investment projects were in semiconductors, in response to global chip shortages.

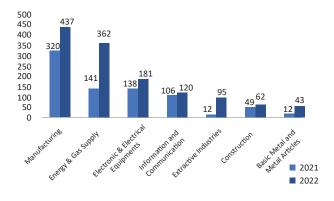

In 2022, FDI in renewable energy generation, including solar and wind, and its supply chain also continued to grow, albeit at a slower rate of 8% than the 50% growth recorded in 2021. The number of new projects announced in critical minerals in 2021 and 2022 was more than double the average level of the last decade. Notably, battery manufacturing projects tripled to more than US\$ 100 Bn in 2022. However, these investments are concentrated to the United States of America and European manufacturing hubs, with a few developing countries attracting substantial investments.

#### **Way Forward**

Since 2020 Sri Lanka has faced several challenges with the coronavirus pandemic, which has had a severe impact on the economic growth and development of the country. However, with the expectation of an economic recovery during 2023, Board of Investment of Sri Lanka (BOI) has set various prospective targets to achieve by 2023 as envisaged in the BOI Corporate Plan 2022-2026.

#### **FDI Inflows**

With investments coming from different types of projects the BOI targets to attract Inward Foreign Direct Investment (FDI) to the value of US\$ 1.3 Bn in 2023.

#### **Employment**

Considering the past performance in relation to employment creation and the projects under implementation, BOI aims to create 560,000 cumulative employment of BOI companies by 2023.

#### **Export Earnings**

With the past trends, and the possibilities of enhancing export performance of BOI registered companies, the BOI intends to increase its merchandise exports up to US\$ 10,400 Mn by 2023.

#### **Land Availability for Investments**

There will be about 464 Acres additional lands developed for investments in 2023.

#### **Zone Development & Management**

For the year 2023, the Board of Investment of Sri Lanka is planning to engage in the following Export Processing Zones development activities to address the issue of the scarcity of developed lands for investors:

- Bingiriya Export Processing Zone
- Wagawatta Industrial Zone
- New Zones Development in Hambantota
  - 1) Pharma Zone Arabokka
  - 2) Arabokka Zone Development
  - 3) Mirijjawila Export Processing Zone
- Textile Manufacturing Zone in Eravur
- New Zones in Eastern Province (Locations to be identified)

#### **Human Capital**

#### **Our People**

Our people, driven by a strong sense of public service, are fundamental to the BOI's journey of driving the organization and the nation at large towards economic and social development.

To fuel this national responsibility our people are constantly provided with the required professional and personal support.

BOI as one of the most sought after institutions in the government sector has provided employment to people with diverse backgrounds since its inception in 1978 and in return BOI comprises of talented teams having varying viewpoints which is also the strength of the BOI in taking the country forward to the international arena. The structure of the organization is such that it enables creating a diverse pool of talent.

#### **Human Resources Policies**

The human resources practices within the Board are guided by three comprehensive policies. These policies lay the foundation for the best practices the Board should follow in each person's function.

#### **Human Resources Policy Manual**

Human resources policy manual is in place to ensure integrity and credibility under each person's function. Further, it ensures our practices are people centric and fair by everyone. It governs recruitment and selection practices, probation and confirmation, remuneration, working hours, attendance & holidays, performance appraisal and training and development. It further provides direction to all practices in areas such promotions, transfers and demotions, working conditions, grievances and matters concerning trade unions.

We consistently adhere to the guidelines of the Human Resource Policy Manual unless a justifiable deviance occurs as approved by the Board of Directors.

#### Scheme of Recruitment

The Scheme of Recruitment clearly spells out the guidelines for recruitment practices and these are strictly adhered to when absorbing talent internally and externally.

#### **Code of Discipline**

We at BOI encourage professionalism and strong work ethic. We also believe in ethical conduct and upholding our organizational values at all times. As such, the BOI Code of Discipline provides direction to ethical conduct expected of all employees of the Board. The Code of Discipline, under "Code of Conduct" and "Rules of Disciplinary Procedure" provides the necessary procedures to formally address any incident involving misconduct or lapse by employees of the Board.

### Our Approach to Managing People

The BOI follows very strong people centered practices and in doing so enables a workforce that is both enthusiastic and happy. This in turn ensures that our national responsibility is fulfilled by creating value for the organization. Our human resources management functions range from recruitment and selection, human resource development, compensation and benefits to employee welfare and discipline. These functions implemented and overseen centrally, ensure that our people are well supported and looked after throughout their employment at the Board. We place emphasis on practicing and demonstrating equality, impartiality and ethicality when carrying out these functions

Public service being the shared vision and the driving force of the BOI, our HR functions ensure precise compliance with government rules, regulations and policy decisions. As the apex institution for the FDI attraction and facilitation we do not undermine the responsibility the BOI has towards our nation and therefore every step is taken to drive our people towards fulfilling this national responsibility. It is noteworthy that all of the HR functions are guided by the policies that are in place to safeguard government institutions in relation to credibility and consistency.

The recruitment and selection function ensures that the right talent is in place at the right time through a transparent process while the human resource development function ensures the professional development of our people. Compensation and benefits and employee welfare functions to ensure our people are equitably compensated and their well-being is taken care of.

With all of these systems in place to support our employees it is expected that they conduct themselves responsibly both at work and elsewhere. The disciplinary function ensures that employee misconduct is promptly addressed and mitigated to prevent potential disruption

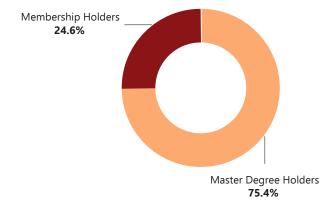

#### **Composition of our People**

The BOI team in its entirety consists of 418 number of people attached to the Head Office in Colombo and 780 number of people in various other locations around the country. There are three employee categories in our cadre, 47% of our team includes executive level employees located in the Head Office as well as in Export Processing Zones and Parks. The balance 53% of our team includes non-executive grade employees comprising of Management Assistants and Primary Level Staff. 21% of the entire team are Management Assistants and 31% are PL grade staff.

At BOI. we encourage and support diversity and believe it's one of our greatest strengths. We provide opportunities to males and females alike to progress through their career within the Board. Male and female representation is visible throughout all employee cadres.

Our team comprises employees with different educational and professional backgrounds. 564 of 1198 employees represent Executive categories of which 331 are graduates out of which 166 are masters degree holders and 54 are membership holders of professional bodies. The Board continues to benefit immensely from the diversity of the educational backgrounds of our employees with them coming from different disciplines such as Business Administration, Science, Economics, Engineering, Public Management, Accounting, Social Science, Law, and Customs Administration.

We believe continuous professional development of our employees is paramount to the organizational success particularly in the context of the fierce competition of the industry we operate in. Hence, the Board has introduced comprehensive sponsorship policies for studies, promotion policy and leave policy that reflect the Board's commitment to support employees to pursue their professional development goals.

#### **Training and Development**

At BOI we provide support to employees for their professional and personal development. As such we have conducted 16 in-house training programs and over 40 external training programs for executive, non-executive grades and primary level employees. Around 400 employees in executive grades have been trained through in-house and external training programs while around 250 employees in non-executive and primary levels have been trained.

Further, a Strategic Leadership Development rogramme for Senior Deputy Directors and a Management Development programme for Deputy Directors were implemented in collaboration with the Postgraduate Institute of Management of the University of Sri Jayewardenepura. The programme is geared towards developing leadership/managerial competencies of the senior officers including their Interpersonal, Conceptual and Technical competencies enabling them to take up responsibilities at the next level.

#### Role of HR

With the emergence of a global pandemic followed by the economic crisis in the country, our journey towards fulfilling our national responsibility has become more challenging and strenuous. Yet, as HR we are committed to support our employees to bring out the best in them as they steer through the still prevalent economic and social challenges. HR continues to explore its role in terms of new ways of supporting our people and the business particularly in the areas of adaptation of technology, creating agile work environments and capability building all of which are geared to mould our people to become the best versions of themselves.

#### **Social Impact**

#### PARTNERED WITH NAITA

BOI Partners with NAITA to Upskill and Help School Leavers to Find their Career Paths

The Board of Investment (BOI) collaborated with the National Apprentice and Industrial Training Authority (NAITA) to address the dearth of human capital at the level of technical skills, which has been a challenge for industries over a period of time.

The enterprises at the Horana Export Processing Zone (HEPZ) had encountered a shortage of electricians, welders, plumbers and fitters, etc needed for the operation of the factories. This has prompted the BOI to team up with the NAITA where they agreed to provide necessary skills, expertise, and training to school leavers so that the scarcity of the workforce can be mitigated.

Furthermore, the apprentices will be absorbed into relevant companies and factories upon the completion of the training as per the requirement of the enterprises.

#### **EMPOWERMENT**

**Empowerment of Employees** 

As a measure of empowerment of employees in BOI enterprises, the BOI celebrates Women's Day, Safety Week and milestone events with the participation of employees of the BOI enterprises.

#### **JOB AWARENESS**

Orientation Programmes and Awareness Programmes

BOI, Industrial Relations Units and job banks located in Export Processing Zones continuously conduct orientation programmes for newly recruited employees and awareness programmes on social dialogue, workplace cooperation, decent work practices, health & safety etc. in collaboration with relevant government agencies.

#### **BOI JOB BANK**

Job Bank Portal

The BOI job placement centre (Job Bank) has been providing a great service to fulfill the manpower requirements of the BOI enterprises.

Job banks are located in all export processing zones. In addition to the zonal job banks; an online job bank portal has been launched by the BOI as a free service to communicate to the general public the job opportunities available in the BOI enterprises located within and outside the Export Processing Zones.

#### **CAREER GUIDANCE**

Job Fairs / Career Guidance Seminars for Youth

The BOI facilitated in organizing job fairs / career guidance programmes in collaboration with other relevant agencies in order to attract more job seekers and to attract the school leaving aged population for job opportunities in the BOI enterprises and to direct them towards a proper career path through the career guidance programme.

#### DAY CARE CENTERS

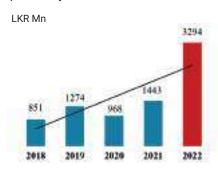

The establishment of Day Care Centers and Pre-schools in EPZs provide a tangible solution for employees who are willing to continue their jobs while keeping their kids in secured places within the zones. This provides a solution to reduce high employee turnover and to create awareness of support extended through the zones amongst new recruits.

#### **Financial Review - 2022**

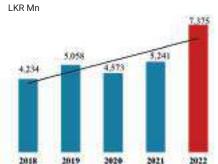

Financial Performance For the Year Ended 31 December	2022 (Rs. Mn)	2021 (Rs. Mn)	Change (%)
Revenue	5,973	4,911	22
Total Operating Expenses	(4,075)	(3,788)	(8)
Operating Profit	1,889	1,123	69
Finance Income	1,402	330	325
Finance Expense	(7)	(10)	30
Surplus Before Taxation	3,294	1,443	128
Tax Expenses	(372)	(79)	(371)
Surplus After Taxation	2,922	1,364	114
Other Comprehensive Income	(6)	81	(107)
Total Comprehensive Income	2,916	1,445	102
Financial Position at the Year End			
Assets	68,662	64,533	6
Equity	50,691	47,391	7

#### **Surplus**

The Surplus before Tax for the year under review is Rs. 3,293.71 Mn. Net Surplus after Tax for the year ended has increased to Rs. 2,921.66 Mn from Rs. 1,363.41 Mn in year 2021.This is an increase of 114% compared to the previous year.

License Fees, Agreement Processing Fees & Miscellaneous Income. Non-operating based income is mainly from Interest Income. Interest income for the period has increased by Rs.1,072.25 Mn which is an increase of 325% compared to year 2021. This favourable variance has been recorded mainly due to increase in the interest rates of government securities against the investment portfolio. Interest income for the period is Rs.1,402.02 Mn.

#### LKR Mn

#### **Government Levies**

The Surplus before Tax for the year under review is Rs. 3,293.71 Mn. Net Surplus after Tax for the year ended has increased to Rs. 2,921.66 Mn from Rs 1,363.41 Mn in the year 2021. This is an increase of 114% compared to the previous year.

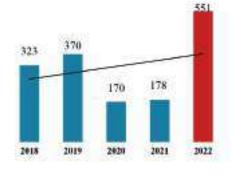

LKR Mn

#### Revenue

Total Operating Revenue has increased from Rs. 4,911.18 Mn in 2021 to Rs. 5,973.23 Mn recording an increase of 22%. This increase in Revenue has recorded mainly due to the revision of rates and depreciation of Rupees against the US Dollar. The components of gross revenue consist of items that are "Operating Based" and Non-Operating Based". Operating based revenue consists of Ground Rent, Annual Fees, Import / Export Services Charges, Water Income,

#### **Expenditure**

Total Operating Expenditure has increased by 8% from Rs. 3,788.18 Mn in 2021 to Rs. 4,074.63 Mn in 2022. Administrative Expenses have increased by 6%, mainly due toincreases in personnel costs, staff welfare and transport related expenses.

### NOTES TO THE FINANCIAL STATEMENTS

### 1. Reporting Entity

Board of Investment of Sri Lanka is established under the Board of Investment of Sri Lanka Law, No 4 of 1978. The registered office and the principal place of organization is located at West Tower, WTC, Echelon Square, Colombo 01.

### 2. Basis of Preparation

### 2.1 Statement of Compliance

The Statement of Financial Position, Comprehensive Income, Changes in Equity, Cash Flow and Notes together with a summary of significant accounting policies of the Board have been prepared in accordance with Sri Lanka Accounting Standards (SLFRS/LKAS) issued by The Institute of Chartered Accountants of Sri Lanka which represent International Financial Reporting Standards issued by the International Accounting Standard Board.

### 2.2 Use of Estimates, Judgements and Assumptions

The preparation of the Board's Financial Statements requires Management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the reporting date. The estimates and underlying assumptions are reviewed on an ongoing basis. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

### 2.3 Approval of Financial Statements

The Financial Statements of the Board for the year ended 31<sup>st</sup> December 2022 were approved and authorized for issue by the Board of Directors in accordance with the Minutes of the Board Meeting held on 26<sup>th</sup> July 2023.

### 2.4 Comparative Information

Comparative information is disclosed in respect of the previous year in the Financial Statements in order to enhance the understanding of the current period's Financial Statements and to enhance the inter period comparability. The comparative information has been reclassified where ever necessary to conform with the current year's classification in order to provide a better presentation.

### NOTES TO THE FINANCIAL STATEMENTS (Contd.)

### 2.5 Going Concern

When preparing the Financial Statements, the Management has assessed the ability of the Board to continue as a going concern. The Management has a reasonable expectation that the Board has adequate resources to continue in operational existence for the foreseeable future. The Board does not foresee a need for liquidation or cessation of operations, taking into account all available information about the future. Accordingly, the Board continues to adopt the going concern basis in preparing the Financial Statements.

### 2.6 Functional and Presentation Currency

The functional currency of the Board is determined to be Sri Lankan Rupees and the Financial Statements are also presented in Sri Lankan Rupees.

### **3** Significant Accounting Policies

### 3.1 Financial Assets

The Board classifies its financial assets into loans and receivables and financial assets measured at fair value in investments. The classification is determined by Management at initial recognition and depends on the purpose for which the investments were done acquired and its contractual cash flow characteristics.

### (a) Classification

### (i) <u>Loans and Receivables</u>

Loans and Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables arising from ordinary transactions are also classified in this category and are reviewed for impairment.

### (ii) Financial Assets Measured at Fair Value – (Held-to- Maturity Financial Assets)

Financial assets measured at fair value are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Board's Management has the positive intention and ability to hold to maturity. These financial assets are classified at fair value in the Statement of Financial Position on recognition.

### NOTES TO THE FINANCIAL STATEMENTS (Contd.)

### (b) Impairment

Financial Assets are reviewed at each Statement of Financial Position date, to determine whether there are any expected credit losses. If any such indication exists, the assets recoverable amount is estimated. The Board measures the Expected Credit Losses based on an evaluation across all categories of Financial Assets. These estimates are driven by a number of factors such as time value of money, breach of condition of contract, customer situation analysis, sub group of receivables, payment profiles of debtors, collateral values, the assessment of a significant increase in credit risk, financial difficulties of the customers, legal issues, reasonable and supportable information and forecast of future economic conditions.

An impairment loss is recognized whenever the carrying amount of an assets or it's cash generating units exceed its recoverable amount. Impairment losses are recognized in the Income Statement.

### (c) **De-recognition**

Impairment losses recognized in prior period are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is de-recognized if there has been a change in the estimates used to determine the recoverable amount.

### 3.2 Property, Plant and Equipment

### (a) Recognition and Measurement

Property, Plant and Equipment are stated at cost less accumulated depreciation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials, direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items, and restoring the site on which they are located.

Value of property plant and equipment carried at valuation less accumulated depreciation as at 1<sup>st</sup> January 2011 have been considered being the deemed cost as at 1<sup>st</sup> January 2011 as per SLFRS 1 for the Revalued Assets.

### (b) Depreciation

Depreciation is calculated on the straight-line basis on the cost/ valuation of all items of Property, Plant and Equipment and is recognized in the Income Statement. Depreciation is charged on fixed assets in the year of purchase when it is available for use. Property Plant and Equipment have been depreciated annually over the useful lives. Freehold Land is not depreciated.

### NOTES TO THE FINANCIAL STATEMENTS (Contd.)

Class of Assets	Depreciation percentage	<u>Period</u>
	<u>per annum</u>	(years)
Buildings & Structures	5 - 10	10 - 20
Plant and Machinery	10	10
Fixtures & Fittings	10	10
Office Furniture & Equipme	ent 10	10
Computers	33.33	3
Motor Vehicles	20	5

### (c) De-recognition

The carrying amount of Items of property, plant and equipment are de-recognised upon disposal or when no future economic benefits are expected from its use. Gain or loss arising on de-recognition of an item of Property, Plant and Equipment is determined as the difference between the sales proceed and the carrying amount of the asset and is recognized in the Income Statement. (within "Other Operating (Miscellaneous) / Income / Expense.

### (d) Subsequent Expenditure

The cost of replacing, developing, and constructing part of an item of Property, Plant, and Equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Board and its cost can be measured reliably. The costs of repairs and maintenance of Property, Plant and Equipment are recognized in the Statement of Income and Other Comprehensive Income as incurred

### (e) Gain/Loss from Sale of Property, Plant and Equipment

Any gains or losses on retirement or disposal of Property, Plant and Equipment are recognized in the period in which the sale occurs and is classified as Other Operating Income or Expense.

### (f) Capital Work in Progress

Capital expenditure incurred during the year on projects which are not completed as at the Statement of Financial Position date, are shown as Capital Work in Progress. These are stated at cost less any accumulated impairment losses. Capital Work in Progress is transferred to the relevant asset categories, such as Property, Plant and Equipment, Differed Expenditure and Expenditure incurred for Mega Projects, when it is in the location and in a condition necessary for it to be capable of operating in the manner intended by the Management.

### NOTES TO THE FINANCIAL STATEMENTS (Contd.)

### (g) Leasehold Assets

Assets acquired under financial liabilities are capitalized & included under the category of leasehold motor vehicles with recognition of a corresponding financial liability. Assets held under financial liabilities are depreciated over their period of use.

### (h) Structures

Deemed Values of Structures have been assessed under seven main sub categories. All items and components connected with each main sub category are considered as forming part of one unit.

3.3

### (a) Investment Properties

Investment Properties are stated at cost prevailed (cost model) as of the date of classifying the said assets under Investment Properties.

Investment Property is recognized if it is probable, that future economic benefits that are associated with the Investment Property will flow to the Board and cost of the Investment Property can be reliably measured. Properties held to earn rental income have been classified as Investment Property. Subsequently, the fair value of the investment properties is not measured and no valuation has been carried out by an independent valuer who holds a recognized professional qualification in investment property, except for few properties.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposal.

### (b) Depreciation (Amortization)

Depreciation is calculated on the straight-line basis on the cost/valuation of the Investment Property other than land. Investment Property have been depreciated annually over the useful lives as follows.

Class of Assets	<b>Depreciation Percentage</b>	<u>Period</u>
	per annum	(years)
Buildings	5	20

### 3.4 Intangible Assets

### (a) Recognition and Measurement

Intangible assets that are acquired by the Board, which have finite useful lives are recognized and carried at cost less accumulated amortization and impairment losses.

### NOTES TO THE FINANCIAL STATEMENTS (Contd.)

### (b) Amortization

Amortization is recognized in the Statement of Income and Other Comprehensive Income on a straight-line basis, over the estimated useful lives of intangible assets from the date that they are available for use.

Class of Assets	<b>Depreciation Percentage</b>	<b>Period</b>
	per annum	(years)
Software License - Kiosk	5	20

### (c) Subsequent Expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in the Statement of Income and Other Comprehensive Income as incurred.

### (d) Retirement and Disposal

An intangible asset is derecognized on disposal or when no future economic benefits are expected from its use and subsequent disposal. Gains or losses on disposal of an item of intangible asset are determined by comparing the proceeds from disposal (net of any directly attributable expenses) with the carrying amount and are recognised on net basis within "Other Operating Income / (Expenses)" in the Statement of Income and Other Comprehensive Income

### 3.5 Inventories

All inventories have been valued at lower of Cost or Net Realizable Value. Cost is determined based on First in First Out basis. (FIFO)

### 3.6 Other Assets

Other assets include Other Debtors, Receivables, Advances, Deposits and Prepayments.

### (a) Advances, Deposits, Prepaid Expenditure

Expenditure which is deemed to have a benefit or relationship to more than one financial year is classified as advances, deposits and prepaid expenditure. Such expenditure is written off over the period, to which it relates, on a time proportion basis.

### (b) Other Debtors

Other debtors are recognized at cost less impairment loss.

### NOTES TO THE FINANCIAL STATEMENTS (Contd.)

### 3.7 Cash and Cash Equivalents

Cash and Cash Equivalents comprise cash in hand and short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. These are held for the purpose of meeting short-term cash commitments.

### 3.8 Cash Flow Statement

The Cash Flow Statement has been prepared by using indirect method in accordance with the Sri Lanka Accounting Standard No. 7 (LKAS) on Cash Flow Statements.

### 3.9 Employee Benefits

### (a) Defined Contribution Plans

Employees are eligible for Employees' Provident Fund (EPF) Contributions and Employees' Trust Fund (ETF) Contributions in line with the respective statutes and regulations. The Board pays fixed contributions of gross emoluments of employees to Employees' Provident Fund and Employees' Trust Fund and will have no legal or constructive obligation to pay further amounts.

### (b) Defined benefit plans

Defined benefit plans are post-employment plans other than defined contribution plans. Board is liable to pay Gratuity in terms of the Payment of Gratuity Act No. 12 of 1983. A provision for the obligations under the Act is determined based on an actuarial valuation. The calculation is performed annually by an independent Actuary using the "Projected Unit Credit Method".

### 3.10 Liabilities & Provision

Liabilities & Provisions are recognized in the Statement of Financial Position when there is a legal/constructive obligation at present, as a result of past events where the settlement is expected to result in an outflow of resources embodying economic benefits.

Obligations payable on demand of the creditor or within one year of Statement of Financial Position date are treated as current liabilities in the Statement of Financial Position. Liabilities payable after one year from the Statement of Financial Position date are treated as non-current liabilities in the Statement of Financial Position.

### Other Liabilities

Other liabilities include other creditors including Accrued Expenditure. These are stated at their historical value which is deemed to be their fair value.

### NOTES TO THE FINANCIAL STATEMENTS (Contd.)

### 3.11 Income Recognition

Revenue from services/fees is measured at fair value of the consideration received or receivable. License Fees and Agreement Processing Fees are recognized on cash basis.

### Ground Rent

Lease Agreements are signed with Investors to lease land belonging to the BOI for periods ranging from 30 years to 99 years. According to the provisions in the Lease Agreements the Investors are bound to pay a Ground Rent annually, in respect of the demised premises over the lease period or until the Agreement is terminated.

### Annual Fees

All BOI Enterprises which come under Section 17 of the BOI Law shall enter into an Agreement with the BOI and those Enterprises which operate outside BOI Zones are liable to pay an annual subscription in terms of the agreement until its closure, suspension of operations or cancellation of the Agreement.

### • Land Premium

All Investors who enter into Lease Agreements to lease BOI land are required to make an upfront payment as Land Premium at the time of signing the Agreement. The above income is recognized over the lease period specified in the Agreement.

### (a) Interest Income

Interest income for all interest-bearing financial instruments including financial instruments measured at fair value through profit or loss, are recognized within 'Finance Income' in the Income Statement.

### (b) Other Income / Miscellaneous Income

### (i) Other Income

Other income is recognized on an accrual basis.

### (ii) Gain / (Loss) from Sale of Property, Plant and Equipment

Any gains or losses on retirement or disposal of Property, Plant and Equipment are recognised in the period in which the sale occurs and is recognized under Miscellaneous Income or Expenses.

### NOTES TO THE FINANCIAL STATEMENTS

### 3.12 Expenses

### **Expenses Recognition**

### (a) Revenue Expenditure

All expenses are measured at fair value of the consideration given and recognized in the period to which those expenses relate. The surplus earned by the Board as shown in the Income Statement is after providing for all known liabilities and for depreciation of Property, Plant and Equipment.

### (b) Capital Expenditure

Expenditure incurred for the purpose of extending or improving assets of a permanent nature by means to carry on the organization or for the purpose of increasing the service/product capacity of the organization has been treated as Capital Expenditure.

### (c) Finance Income and Finance Expenses

Net Finance Income comprise of interest income on funds invested/deposited, staff loans and interest expenses on financial liabilities that are recognised in the Statement of Income and Other Comprehensive Income.

All interest and other costs incurred in connection with borrowings/finance leases are expensed as incurred, as part of Net Finance Income, except to the extent which is eligible for capitalization.

### 3.13 Statement of Cash Flows

The Cash Flow Statement has been prepared using the indirect method in accordance with the Sri Lanka Accounting Standard No. 7 – Statement of Cash Flows (LKAS 7).

### 3.14 Related Party Transactions

The relevant details are disclosed in the respective Notes to the Financial Statements.

### 3.15 Taxation

Income Tax is based on the elements of interest income as reported in the Financial Statements and computed in accordance with Provisions of Inland Revenue Act No.24 of 2017 and amendments thereto.

### 3.16 Changes in Accounting Policies

The management of the Board has made a policy decision in compliance with LKAS 16 on Property, Plant and Equipment, to depreciate Buildings & Structures over a period of 10 to 20 years considering the wear and tear and the useful life of the asset.

/# September 2023

Chairman

Board of Investment of Sri Lanka

Report of the Auditor General on the Financial Statements and Other Legal and Regulatory Requirements of the Board of Investment of Sri Lanka for the year ended 31 December 2022 in terms of Section 12 of the National Audit Act, No. 19 of 2018.

# 1. Financial Statements

# 1.1 Opinion

The audit of the financial statements of the Board of Investment of Sri Lanka ("Board") for the year ended 31 December 2022 comprising the Statement of Financial Position as at 31 December 2022 and the Income Statement, Comprehensive Income Statement, Statement of Changes in Equity and Cash Flow Statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, was carried out under my direction in pursuance of provisions in Article 154(1) of the Constitution of the Democratic Socialist Republic of Sri Lanka read in conjunction with provisions of the National Audit Act No. 19 of 2018. My report to Parliament in pursuance of provisions in Article 154 (6) of the Constitution will be tabled in due course.

In my opinion, the accompanying financial statements give a true and fair view of the financial position of the Board as at 31 December 2022, and of its financial performance and its cash flows for the year then ended in accordance with Sri Lanka Accounting Standards.

# 1.2 Basis for Opinion

I conducted my audit in accordance with Sri Lanka Auditing Standards (SLAuSs). My responsibilities, under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

# 1.3 Other information included in the Board's 2022 Annual Report.

The other information comprises the information included in the Board's 2022 Annual Report, but does not include the financial statements and my auditor's report thereon, which is expected to be made available to me after the date of this auditor's report. Management is responsible for the other information.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated.

When I read the Board's 2022 Annual Report, if I conclude that there are material misstatements therein, I am required to communicate that matter to those charged with governance for correction. If further material uncorrected misstatements are existed those will be included in my report to Parliament in pursuance of provisions in Article 154 (6) of the Constitution that will be tabled in due course.

# 1.4 Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Sri Lanka Accounting Standards, and for such internal control as management determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Board's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Board or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Board's financial reporting process.

As per Section 16(1) of the National Audit Act No. 19 of 2018, the Board is required to maintain proper books and records of all its income, expenditure, assets and liabilities, to enable annual and periodic financial statements to be prepared of the Board.

# 1.5 Auditor's Responsibilities for the Audit of the Financial Statements

My objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Sri Lanka Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Sri Lanka Auditing Standards, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether
  due to fraud or error, design and perform audit procedures responsive to those risks, and
  obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion.
  The risk of not detecting a material misstatement resulting from fraud is higher than for
  one resulting from error, as fraud may involve collusion, forgery, intentional omissions,
  misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing
  an opinion on the effectiveness of the Board's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of the management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Board's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Board to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

# 2. Report on Other Legal and Regulatory Requirements

- 2.1 National Audit Act, No. 19 of 2018 include specific provisions for following requirements.
- 2.1.1 I have obtained all the information and explanation that required for the audit and as far as appears from my examination, proper accounting records have been kept by the Board as per the requirement of section 12 (a) of the National Audit Act, No. 19 of 2018.
- 2.1.2 The financial statements presented is consistent with the preceding year as per the requirement of section 6 (1) (d) (iii) of the National Audit Act, No. 19 of 2018.
- 2.1.3 The financial statements presented includes all the recommendations made by me in the previous year as per the requirement of section 6 (1) (d) (iv) of the National Audit Act, No. 19 of 2018.
- 2.2 Based on the procedures performed and evidence obtained which limited to matters that are material, nothing has come to my attention;

- 2.2.1 to state that any member of the governing body of the Board has any direct or indirect interest in any contract entered into by the Board which are out of the normal course of business as per the requirement of section 12 (d) of the National Audit Act, No. 19 of 2018.
- 2.2.2 to state that the Board has not complied with any applicable written law, general and special directions issued by the governing body of the Board as per the requirement of section 12 (f) of the National Audit Act, No. 19 of 2018 except for;

	Reference to Laws, Rules and Regulations or Directions issued by the governing body	Non-compliance
(a)	National Procurement Guidelines - 2006	The construction of road leading to Director bungalow in Seethawaka Export Processing Zone had been done contrary to the guidelines 3.2.1, 8.9.1(a), 8.9.3, 4,3,1 and 5.1.1 (a) of the Government Procurement Guidelines.
(b)	Management Service Circular No.02/2016 dated 25 April 2016 and Circular No. 02/2016 (01) dated 22 October 2016	Although, approved salary code for Executive Directors and Senior Executive Director are HM 2-1 and HM 1-1, the board had kept relevant officers at salary code of HM 2-2 and HM 1-2.
(c) (i)	and Operational Manual for State Owned Enterprises (SOEs)	
	Section 2.6	The Executive Director- Human

Resources and Administration had been

appointed as the secretary of the Board

of Directors.

Section 3.1

Though the website should include at least the Annual Reports of the last 05 years, Only the Annual Reports related to the years 2019 and 2020 were uploaded to the Website as at 31 July 2023.

(ii) Operational Manual for State Owned Enterprises

Section 3.1 & 3.2

The board had paid Rs. 544,263,823 as allowances and Rs, 68,039,960 as bonuses for the year under review without the approval of the General Treasury.

- 2.2.3 to state that the Board has not performed according to its powers, functions and duties as per the requirement of section 12 (g) of the National Audit Act, No. 19 of 2018.
- 2.2.4 to state that the resources of the Board had not been procured and utilized economically, efficiently and effectively within the time frames and in compliance with the applicable laws as per the requirement of section 12 (h) of the National Audit Act, No.19 of 2018.

# 3. Other Audit Observations

- (i) The dues from BOI approved enterprises as at 31 December 2022 was Rs. 873,876,132 and out of that a sum of Rs. 143,523,834 or 16 per cent had remained for more than 05 years. The Provision for impairment on dues was Rs. 359,321,925 and it represents 41 per cent of the total dues as at 31 December 2022.
- (ii) A sum of Rs. 164,144,352 out of other receivable amounting Rs. 169,242,658 or 97 per cent had remained outstanding for more than 05 years.
- (iii) BOI had deducted an amount of Rs. 51,492,525 from the contribution to the Consolidated Fund of Rs. 500,000,000 as the recovery of salaries and allowances

payable to special unit established under a Cabinet decision. However, at the end of May 2022, 08 officers out of 09 recruited had resigned from their posts and total payment for the 09 officers in 2022 was Rs. 18,793,706. Therefore, it was observed that BOI had failed to refund the balance amount of Rs. 32,698,819 to the Treasury as the Contribution to the Consolidated Fund and had shown under Receipt In Advance as at 31 December 2022.

- (iv) An extent of 773.09 acres of land in 13 Zones were vacant as at 31 December 2022 and it represents 30 percent of the industrial area which was available for investors. Further, lands in Arabokka (Pharma Zone) and Bingiriya EPZ phase II with an extent of 751.7 acres and 282.9 acres respectively had been remained idle without being utilized as at 31 December 2022 since their inception. Further, an extent of 777.11 acres of land in outside the Economic Zones were remained idle as at 31 December 2022.
- (v) Only 800 meters had been utilized out of 10.8 Km of internal road at Mirijjawila Export Processing Zone, constructed at a cost of Rs. 516,964,285.

W.P.C. Wickramaratne

Auditor General

# Reply of the BOI for the Report of the Auditor General - 2022

Report of the Auditor General on the Financial Statements and Other Legal and Regulatory Requirements of the Board of Investment of Sri Lanka (BOI) for the year ended 31 December 2022 in terms of Section 12 of the National Audit Act, No. 19 of 2018

# 2.2.2 Non-compliances with written laws, general and special directions issued by the governing body of the Board

	Reference to Laws, Rules and Regulations or Directions issued by the Governing Body	Non-Compliance	Reply
(a)	National Procurement Guidelines 2006	Construction of road leading to Director bungalow of Seethawaka EPZ had been done in contrary to the Procurement Guidelines.	The work has been awarded and monitored by the three member committee (02 engineers from enterprises and Director-Zone) appointed for the purpose. Since government funds have not been utilized for this project, the Committee has not followed the national competitive bidding process.
(b)	Management Services Circular No. 02/2016 dated 25/04/2016 and Circular No. 02/2016 (01) dated 22/10/2016	Executive Directors and Senior Deputy Directors have been placed at an erroneous salary code [HM 2-2 & HM 1-2, instead of HM 2-1 & HM 1-1].	Arrangements have been made to place Executive Directors and Senior Deputy Directors on the accurate salary code as per the Management Services Circular No. 02/2016(1) dated 22 <sup>nd</sup> October 2016.
(c)	Public Enterprises Circular No. 01/2021 dated 16/11/2021		
(i)	Guidelines on Corporate Governance and Operational Manual for State Owned Enterprises (SOEs)		
	Section 2.6	Appointed Executive Director (HR & Admin.) as the secretary to the Board.	The Executive Director (HR & Administration) who functioned as Acting Director (HR) in 2017 was appointed as the Secretary to the Board of Directors in addition to his regular duties effective from 28.07.2017.
			As per the Public Enterprises Circular No. 01/2021 dated 16.11.2021, the appointee to the post of secretary to the Board should be a member of the top management level.

	Reference to Laws, Rules and Regulations or Directions issued by	Non-Compliance	Reply
	the Governing Body		Further, CEO or any employee engaged in another function cannot be appointed to the said post. In such context, BOI may need to create a position in the Director level within
			permanent cadre and obtain approval for the same from the Department of Management Services.
			Subsequently, the National Budget Circular No. 03/2022 dated 26.04.2022 has been issued by the Secretary to the Treasury which indicates as follows
			vii. Differing the recruitments to posts to which no appointments have been made so far though the preliminary arrangements have been made for the recruitment of employees.
			According to the above circular, it was not possible to make any appointment to the post of Secretary to the Board.
			In this context, the Board of Directors at its meeting held on 04.05.2022 has granted approval to permit Executive Director (HR & Administration) to continue in the capacity of Secretary to the Board.
	Section 3.1	Website had not been updated with Annual Reports of last 05 years.	The Annual Report 2020 has already been uploaded to the Website and the year 2021 report will be uploaded soon.
(ii)	Operational Manual for State Owned	Board had paid allowances and	The matter of approval for the allowances, bonuses and other employee benefits being
	Enterprises Section 3.1 & 3.2	bonuses without approval of the General Treasury for the Scheme of Recruitments and pay structure.	paid in the Board was queried at the COPE meeting held on 11.11.2021 and directed the BOI to get the concurrence of Ministry of Finance and regularize the allowances being paid to the employees of the BOI. Accordingly, the Treasury approval had been requested by letter dated 02.12.2021. Subsequently, a discussion was held at the Ministry of Finance in this regard on 03.11.2022 with the participation of State
			Minister of Finance, State Minister of Investment Promotion, DG (DMS) and DG

Reference to Laws,	Non-Compliance	Reply
Rules and		
Regulations or		
Directions issued by		
the Governing Body		
		(PED) and the BOI was suggested to obtain
		the covering approval of the Cabinet of
		Ministers for the allowances and staff
		benefits schemes of the BOI.

# 3. Other Audit Observations

-----

# (i) Dues from BOI approved enterprises

# Annual Fees & Ground Rent

Out of the total sum of Rs. 127,363,225/- which has not been settled for more than 04 years, a sum of Rs. 115,481,676/- (91%) is due from Cancelled Projects.

# Office Rent

Out of Rs. 22,542,626/- which has remained unsettled for more than 04 years a sum of Rs. 15,573,176/- is due from 03 enterprises at SEPZ which have ceased to operate since 2002. As the buildings had been rented out by the then Ministry of Enterprise Development there are no Agreements with the BOI and the only option available is to write off the dues after obtaining approval.

# Water / Electricity / Waste Water / Solid waste / Miscellaneous

A major portion of dues within 1 year amounting to Rs. 266,731,108.00 relates to invoices issued for the month of December 2022. Out of that, a sum of Rs.259,823,374.54 (approx. 97%) has been recovered by April 2023.

# (ii) Other receivable

# Amount receivable from Auctioneer

BOI had awarded the contract of auctioning houses at Wathupitiwala Export Processing Zone to an Auctioneer. Selection of the Auctioneer was made through the paper advertisement and subsequent decision of the Procurement Committee. The auction was completed successfully and the bidders who had obtained houses had paid their advance money to the auctioneer. However, the auctioneer had failed to deposit that amount to the BOI.

The BOI had made efforts to get this amount of Rs. 1,604,200/- to the BOI and the Legal Department of the BOI had sent Letters of Demand to the Auctioneer.

These Letters of Demand were returned back as the Business was closed and the owner had left the country.

On instructions of the Audit Committee, the officers of the BOI met the Director of the Fraud Investigation Bureau to check the possibility of filing a case against the Auctioneer.

Hon. Attorney General's opinion has been obtained with regard to the Auctioneer, according to which, the prescriptive period for filing action had expired. Therefore, it is suggested to obtain an admission in respect of dues from the auctioneer, through police statement or in response to letter of demand as it may be possible to overcome prescription and pursue legal action. However, BOI has not been able to find the whereabouts of the auctioneer; hence could not proceed to obtain an admission as stated above.

Audit Committee suggested at its meeting held on 11.05.2021 that all long outstanding perennial items including receivables from the auctioneer of Wathupitiwala Housing Units to be written off with a proper approval.

Accordingly, action will be taken to write off this amount with proper approval.

# Janatha Estate Development Board (JEDB)

This matter of outstanding amount from JEDB over a long period of time has been escalated up to the Secretaries of the relevant Ministries and meetings have been held with the participation of relevant officials from then Ministry of Development Strategies & International Trade, then Ministry of Public Enterprises & Kandy City Development and with the Ministry of Plantation Industries & Export Agriculture on 28.07.2020.

Subsequently, a letter has been sent by Chairman of BOI to Chairman of JEDB on 04.06.2021, requesting immediate intervention to make arrangements to settle the remaining balance to BOI, whereas no response has been received up to date.

A letter has been prepared in this regard addressed to the Secretary, Ministry of Investment Promotion requesting the intervention to resolve this matter.

# Sri Lanka State Plantation Corporation (SLSPC)

Former Superintendent of Perth Estate had filed a case in the Labour Tribunal (LT) against SLSPC and BOI for unlawful termination of services claiming reinstatement / Rs.8,644,683.10 as compensation.

Order was delivered by LT to pay Rs.125,580.00 to the former Superintendent of Perth Estate, Approval has been obtained from the Board at its 288<sup>th</sup> meeting held on 14.02.2012 to deposit an amount of the Rs.125,580/- at the office of the Assistant Commissioner of Labour / Panadura in favour of the said employee, without taking steps to appeal against the order of the LT. It has been decided to request the SLSPC to reimburse the said amount to BOI.

Legal Dept. of BOI has requested from SLSPC by their letter dated 12.06.2014 to reimburse the deposit and a reminder has been sent on 15<sup>th</sup> March 2019.

# <u>Urban Development Authority</u>

The Urban Development Authority has settled the total amount of Rs 123.36 Mn during year 2023.

# Ex- Employee of BOI

Ex-employee of BOI served in the Board from 14.06.2012 to 10.02.2015 on secondment basis. He joined the Board as Executive Director (HR & Administration) and exit from the service as the Director General of the Board. Later, it was found that an amount of Rs. 1,033,297.34 had been overpaid to the said ex-employee as allowances during the period from November 2013 to January 2015. Accordingly, he was requested to refund the overpaid amount and he has made arrangements to settle the dues on monthly instalment basis. However, he has to pay a remaining balance of Rs. 105,000/- out of the overpaid amount, for which he has not made any payment since March 2018. Accordingly, he has been requested to settle the balance amount of Rs. 105,000/- by the letter dated 12.06.2019 and the reminders dated 25.07.2022 and 12.06.2023.

# Canada Export License Form

The sum of Rs. 29,349/- has remained unsettled over the years and it is irrecoverable. Action will be taken to adjust the same.

# Two Householders of House 13 and House 07

The above two householders are supposed to pay in monthly instalments of Rs. 10,000/- apart from the down payment and the details are tabulated below.

					Inst	alments		
House No. of Householder	House	Down Payment (Rs.)	Total	With effect from	Last to be paid in	Payable upto Dec 2022	upto Dec	Actual Outstanding at the end of Dec 2022
House 13	1,800,000	100,000	170	Jan 2012	Feb 2026	132	108	24
House 07	1,900,000	300,000	160	June 2012	Sept 2025	127	125	02

Accordingly, Rs. 240,000/- and Rs, 20,000 have been only receivable as at 31<sup>st</sup> December 2022 from the House Nos. 13 and 7 respectively, and out of which Rs. 140,000/- (House 13) and Rs. 10,000/- (House 7) have been settled in the 1<sup>st</sup> half of 2023.

# Fraud at Head Office

A shroff attached to Import/Export Facilitation Centre, Head Office had misappropriated cash amounting to Rs. 1,257,650/- and his services had been terminated w.e.f. 04.05.1995 on the above fraud. The Finance Department had recovered Rs. 750,000/- (maximum limit) through Cash in Deposit Insurance Policy from Insurance Corporation of Sri Lanka. Therefore, the balance sum of above fraud is Rs. 507,650/-. The CID had initiated legal action against the said shroff at Colombo High Courts under the Case No. 12146/6.

- (iii) Action would be taken in year 2023 to refund the excess amount.
- (iv) BOI is continuously taking the steps to promote the vacant lands among the investors based on the following advantages, giving priority to drawing attention of potential investors with maximum investment quantum and export orientation to utilizing BOI Zonal land for investment activities in order to gain a maximum benefit/return:
  - Dealing with the BOI as the sole entity for all location related approvals expedites the project implementation process
  - BOI can provide end to end facilitation from project evaluation to commercialization for projects within a Zone
  - Ongoing facilitation such as import/export/customs clearance is accessed by the enterprise with ease within a Zone

Further, the vacant land details are included in the Land Bank and also as a new strategy, BOI is communicating with the existing investors to promote zonal lands.

Therefore first preference is given to promoting BOI Zonal lands for investments, and this will gain more momentum as the BOI continues to develop new industrial space.

(v) Planning and development of road network in Mirijjawila Export Processing Zone (MjEPZ) had been initiated by the Urban Development Authority (UDA) and UDA had entrusted the road construction works to Road Development Authority (RDA) at the time when the land was in their custody. In 2012 the land was vested with BOI with the construction works carried out by the RDA. Thereafter the road development works had been carried out based on the layout plan attached, which shows reservation of land blocks in the zone for identified parties. As depicted, land blocks in the layout plan were fully reserved at that time and developing access roads was an obligation of the BOI.

Once the road layouts were planned, the phase I of the roads were implemented as to prepare the Subgrade & Subbase throughout the entire road network which is inclusive of Subbase materials of Aggregate Base Course (ABC) covered with two Bitumen layers temporarily till the permanent road surface is done. The intention

was to market industrial lots to investors and complete carpeting once investors commence their commercial operations. This is the practice of all BOI zones established so far. BOI had allocated lands to many investors in connection with then political leadership and out of them R N Innovative Products (Pvt) Ltd, Global Auto Manufacturing Ltd established their factories and commenced operations. Later in 2018 Lanwa Sanstha Cement Corporation (Pvt) Ltd also established a cement plant in this stretch and the length of 800m of the road section is fully used by both R N Innovative Products (Pvt) Ltd and Lanwa Sanstha Cement Corporation (Pvt) Ltd.

Thereafter there was a policy change and the BOI was instructed to focus on new zone development of Bingiriya and Wagawaththa using limited capital budget of BOI while keeping rest of the lands in Mirijjawila Phase II.

In 2019, it was decided to allocate the entire unused area including halfway developed roads to an Oil Refinery (Silver Park) and as a result, there was no requirement to incur further capital for road carpeting as the layout of the Oil Refinery was to significantly change deviating from the initial industrial lot layout. As a result, BOI has not continued road carpeting on the aforementioned halfway completed subbase.

In 2022, again the same land was allocated to Lanwa Sanstha for a steel plant and they laid the foundation stone also with the patronage of H.E. the President. Since this again was a significant layout change of the original layout, a necessity was not arisen to carpet the road as it would be losing government funds again.

# **Report of the Audit Committee**

The Audit Committee was constituted in accordance with the provisions in the 'Guidelines on Corporate Governance for State Owned Enterprises' which was issued in year 2021 [Public Enterprises Circular No. 01/2021].

Subsequent to formation of the new Board of Directors, the Audit Committee for year 2022 was appointed in March 2022 ensuring proper functioning of a main sub-committee of the Board.

The members of the Audit committee were as follows;

Chairman - Mr. Jayamin Pelpola (Member of the Board of Directors of BOI)
 Member - Dr. Lawrence Perera (Member of the Board of Directors of BOI)
 Member - Mr. Athula Haputantri (Member of the Board of Directors of BOI)
 Member - Dr. M. K. C. Senanayake (Representative of Treasury)

Assistant Auditor General represented the Auditor General at the Audit Committee meetings as an observer while the Director (Internal Audit) acted as the Convenor to the Audit Committee.

The Audit Committee effectively involved in determining the scope and responsibilities of the Internal Audit function by adopting the detailed Action Plan / Audit Programme prepared for the year. Further, the Committee obtained an insight into the work done by Internal Audit by reviewing the summarized Internal Audit Reports.

In addition to above, Auditor General's Reports were also considered on regular basis and directed on corrective and preventive measures and follow up actions for the matters highlighted in such reports.

The Board of Directors were apprised of the recommendations of the Audit Committee along with the minutes of the meetings for ratification of the decided matters and to facilitate taking suitable further measures where necessary. Accordingly, despite the operational hindrances due to prevailed fuel crisis and aggravated economic crisis in the country, the Audit Committee as a prominent sub-committee, assisted the Board of Directors in mitigating risks by reviewing the internal control systems and overseeing the operation of the Internal Audit function of the BOI.

Complying with the terms and references, the Audit Committee discharged its responsibilities during the year in relation to financial and other reporting, risk management and internal control, the Internal Audit function and the relationship and interaction with the Auditor General.
